THURSDAY - STUDENT PROGRAM

Day 1: The Thursday programming will be asynchronous (there is not a specific time to log in for the virtual programming). The goal of day 1 is to review and complete the required course in our course portal called Blackboard.

Most students can complete the course and quiz in 1-2 hours. We will remove the registration hold on your student account once you have completed the quiz at the end of the course with a score of 100%. A video tutorial explains how to access the course here: https://youtu.be/z5lSlIqk4c

FRIDAY - STUDENT PROGRAM

Day 2: The Friday programming will be synchronous (sessions will be available at the scheduled virtual session times). Live representatives will be available to answer any questions you might have after completing the required Blackboard course. Sessions will be available at the scheduled virtual session times below. If for some reason you cannot attend the day 2 synchronous sessions (internet issues, conflicting school events, etc.), let us know and we can help answer any questions you might have.
